

Workstream Benefits is an integrated benefits solution that supports benefits communication, decision support and transactions. Featuring flexible functionality, Workstream Benefits can be implemented quickly to help companies automate and streamline the entire benefits enrollment, communication and administration process.

Key Benefits Capabilities

Benefits Enrollment & Administration is an application that automates the benefits enrollment and administration process. It supports your full enrollment cycle, including open, new hire and life event processing.

Communicator helps organizations personalize and communicate benefit information as well as HR policies and procedures via the web to their employees, drastically reducing the amount of inquiries into your HR staff supporting this process. Communicator also includes benefit decision support tools, such as, personalized plan comparison /modeling and SPD support.

Health Pages is a one-stop source for all the information your employees need to make educated health care choices during benefits enrollment and year-round. Health Pages gives your employees 24/7 access to personalized information on providers and plans specific to your benefits programs and the tools they need to make well-informed decisions. All information comes from our continuously-maintained database of more than 500,000 physicians, 6,000 hospitals and 400 health plans.

Total Rewards Statement gives your employees one place to view, model and manage all of their corporate-sponsored compensation and benefit programs. Your employees are able to grasp the full value of their compensation and benefit programs and the contributions your company makes on their behalf. This can have a dramatic impact on employee satisfaction and your ability to attract and retain employees.

About Workstream Inc.
